Dual Exfoliation Peel

The Dual Exfoliation Peel is Aveda's latest advancement in non-invasive, skin-renewing treatments. Using innovative techniques, this treatment combines Aveda's naturally derived* mechanical and biochemical exfoliation methods into one powerful service that transforms and rejuvenates the skin through the process of dual exfoliation. The treatment delivers immediate, visible results in improved skin texture and radiance; smoothed appearance of fine, dry lines; and refined pores, revealing fresher, younger-looking skin. In a clinical study, the Dual Exfoliation Peel achieved better results than a combined microdermabrasion/30% glycolic peel treatment in both immediate smoothness and radiance, plus significantly better results in smoothness, radiance and the appearance of skin tone one week later.

Botanical Skin Resurfacing Treatment

Go beyond microdermabrasion, and energize the look of your skin with a professional facial treatment that helps smooth skin texture and reduce the appearance of lines and wrinkles and pore size while significantly increasing radiance—all with less visible redness and irritation than a microdermabrasion procedure.

Inspired by plant-based healing traditions from around the world, Aveda's spa and skin care philosophy, Elemental NatureSM, is grounded in the Ayurvedic belief that everything in the universe is composed of five elements: Infinity, Air, Fire, Water and Earth. When environmental and emotional factors such as lifestyle, diet or stress cause these elements to shift out of balance, the opportunity to bring balance and inner and outer well-being can be placed in the hands of the professional.
